This Promotion is focused on how to Revitalize and Rejuvenate Auxiliaries. When completing the District Official Visit of Auxiliary, our District Presidents or assigned Representatives have first-hand knowledge of their Auxiliaries. Let's use them to be our ears and eyes. Listen to the District President or Representative. It is important to have good communication between the District President or Representative, Department President and Department Chief of Staff.

Let's revitalize our Auxiliaries by having a good attitude when you visit them. As Department Chief of Staff, you should be training your District Presidents or assigned Representatives to look for the positives in our Auxiliaries. They should also be trained on how to be in the right zone to have recharging and thrilling ideals for our National Programs. Our District President or Representative should have inspiring words for their meetings. Make sure they have lifting, energized conversations during their visit. Inspire the members by giving them entrusted words on how to vitalize their Auxiliaries. By using these words, we can revitalize our Auxiliaries on being the best that they can be.

Remember every member needs to feel that their involvement is necessary for the success of the Auxiliary. If the members feel welcomed and needed, they will come back to the meetings and functions we have. Let's show that we are proud of our Auxiliary and our members in our community.

We can rejuvenate any Auxiliary that might need our assistance. The District President or assigned Representative need to be positive and have fresh ideals. You can tell someone that they did the wrong thing in a positive way. We can rejuvenate any Auxiliary member by being positive. A member will listen if you have positive words to say. District President or Representative, remember there is always a team that you can ask for support. Our National Programs interact with each other. Pick the right team for that Auxiliary but keep your Department President and Department Chief of Staff informed. If we revitalize and rejuvenate our Auxiliaries there will be less Red Flag Auxiliaries in our Department.

Remember ***Banding Together for Our Veterans*** starts with us being positive.
