Preserve the Past-Celebrate the Present-Inspire the Future

Hi and Happy September!

Thanks to all sending the reports to me

Keep them coming!

Our National Historian and Media Relations Ambassador, Teresa M. Price, has explained in her July promotion about the importance of preserving our Auxiliary records.

Here are some recommended digital platforms to use:

Cloud Storage such as:

Google drive

And Dropbox

External hard drives

USB Flash Drives

I personally prefer the flash drive and the external hard drive-there are no subscription fees and they are both easily accessible.

Both may be purchased online or at Staples, Walmart etc..

We have another big promotion coming from the
VFW Auxiliary-National Organization:

VFW Auxiliary-National Organization

22h · 🌐

One of our goals for the 2026-2027 Program Year is to flood social media with VFW Auxiliaries in Action posts. We know you're out there doing the work, raising funds, donating items, visiting hospitals, making poppy displays, educating youth and more in your communities, and we want to see and share. We would love to be able to share one post per day by the end of this Program Year and we would love to be able to share at least one per Department and Department-Unaffiliated Auxiliary to the What We Do - Auxiliaries in Action section of our National website.

How can you help make this happen?

After your project, program, fundraiser, visit or event has concluded, let us know! Email up to 10 photos as attachments or in the body of the email (no links) to info@vfwauxiliary.org with the subject line Aux in Action. Include your Auxiliary number, Department (if applicable) and a brief description. If showing children's faces, please include a signed photo release from parents.

We may also reach out to you for more information for the a future VFW Auxiliary Magazine or National E-Newsletter article.

Thank you for all you do for our veterans, their families and your local communities.
